

## National ALK-positive LC Patient Conference

Radisson Red Hotel, Bath Road, Heathrow, UB7 0DU

Friday 26 September – Sunday 28 September

ALK Positive UK held its first national weekend conference in Birmingham in 2022 and it was attended by 100 delegates (patients and family members). 140 delegates attended the 2023 conference in London and 170 attended the conference in 2024, also in London.

In 2023, the conference was held in London and 140 delegates attended.

Videos of the 2024 conferences, including what the delegates thought, can be viewed on our website at [Videos | ALK Positive UK | Supporting patients of ALK+ lung cancer](#)

You might also like to look at our website to see what the charity does, in particular the page for HCPs at [Healthcare professionals | ALK Positive UK | Supporting patients of ALK+ lung cancer](#).

We are returning to London in 2025 and, in response to demand, we are making a limited number of places available to lung cancer nurse specialists.

The cost of the conference for patients and their families is sponsored, to a large part, by pharmaceutical companies but this does not extend to HCPs. However, we are offering HCPs a heavily discounted rate of £150 fully residential or £75 day delegate Saturday and Sunday.

The conference starts with dinner on Friday evening followed by an opening address by Professor Sanja Popat, medical oncologist at The Royal Marsden Hospital, Chair of BTOG and Honorary Clinic Advisor to ALK Positive UK.

One of the benefits of the conference is that it provides an opportunity for patients and their families to exchange experiences and we ask that HCPs participate in these exchanges.
